WNY INVENTION CONVENTION 2008

www.WNYKIDSINVENT.ORG (WEBSITE COMING SOON!)

Dear Family,

Your child has the opportunity to participate in the **Western New York Invention Convention**. His/her Invention should be original, (something that has not been made before), or should improve an existing object by modifying it or adding on to it. The invention should solve a problem or make a task easier. Some of your school's inventions will be selected to compete at the **WNY Invention Convention at the Buffalo Museum of Science on April 26th**, where twenty five finalists will be selected to go the **New York State Invention Convention**.

Please encourage your child's participation by helping him/her select a problem to solve. He/she will also need your help after choosing an Invention because a tri-fold display and a model of the Invention are required. Further details will be supplied by school staff.

The Student/Family Contract below must be brought in by: _____.

Please cut & return

WNY Invention Convention

Student/Family Contract

I understand that my child :

_____ Grade/Room_____

is interested in brainstorming an idea for an invention and then building the model of the invention. I understand that my child will bring in the model with the Invention Disclosure Form on the following date:

Due date: _____
